

President Wilson Announces That the Armistice Has Been Signed; Reads Terms at Special Session of Congress

THE GERMAN ENVOYS SIGNED PEACE AT EARLY HOUR TODAY

FIGHTING OF 4 YEARS HAS ACTUALLY STOPPED

ASSOCIATED PRESS FLASHES THE AUTHENTIC NEWS SHORTLY BEFORE TWO THIS MORNING THAT FIGHTING STOPPED AT FOUR O'CLOCK JANESVILLE TIME.

Terms Are Most Drastic and Cover the Ground Arranged For by the Council of the Allied Nations at Their Recent Meetings With a View of Determining Final Peace Terms.

[BY ASSOCIATED PRESS.]

Washington, Nov. 11.—President Wilson issued a formal proclamation at 10:00 o'clock this morning announcing that the armistice with Germany had been signed.

The proclamation follows:

"My fellow countrymen:

"The armistice was signed this morning.

"Everything for which Americans fought has been accomplished. It will be our fortunate duty to assist by example or by sober humble counsel and by material aid in the establishment of just democracy throughout the world."

It is signed Woodrow Wilson.

TO READ TERMS.

President Wilson will read the terms of the armistice with Germany before a joint session of Congress at one o'clock today.

So few members have returned today from their election vacation that when word of the president's coming reached the capital, there was some doubt whether enough could be mustered for a joint session.

THE FIRST ANNOUNCEMENT.

Washington, D. C., Nov. 11.—The world's war will end this morning at five o'clock, Pacific time, or eleven o'clock, Paris time, according to an announcement made from the State Department at two-thirty o'clock this morning.

The armistice was signed by the German representatives at twelve o'clock, Paris time. The official announcement was made by an official of the State Department at one-thirty this morning. The announcement was made verbally as follows:

"The armistice has been signed. It was signed at five o'clock, Paris time, and hostilities will cease at five o'clock, western time."

PROBABLE TERMS OF ARMISTICE.

Military men at Washington regard it as certain that the armistice includes the following terms:

- (1) Immediate retirement of Germany's army from Belgium, France and Alsace-Lorraine.
- (2) The disarmament and demobilization of the German army in certain sectors on the western front.

OCCUPATION OF CITIES.

- (3) Occupation of the allies nations and the forces of the United States of all strategic points which will make it impossible for the Germans to renew the war.
- (4) Delivery of parts of Germany's big navy and a certain number of submarines as well as other German warships.
- (5) Release of allied soldiers, sailors and civilians held prisoners by Germany without reciprocal action by the allies.

NO INFORMATION.

No information as to the conditions under which the armistice was signed were received, but since the German courier did not reach the Grand German headquarters until ten o'clock Sunday morning it is assumed that the German envoys within the allied lines were instructed by wireless to sign the armistice.

Forty hours were required for the courier to reach the German headquarters and it required several hours for the examination of the terms by the officials at the headquarters.

NEW GOVERNMENT.

It was regarded as possible that the decision may have been reached at Berlin and instructions issued by the new German government.

Germany had been given until eleven o'clock this morning to accept the terms, and it will be at that hour that the world's greatest conflict will cease, probably never to be renewed.

The momentous news which will bring joy to every citizen of the United States and other allied nations was transmitted to the White House for the President about fifteen minutes before it was given to the newspapers.

How London Celebrated.

London, Nov. 11, 10:55 a. m.—News of the signing of the armistice soon became known to those persons in the center of the city with issuance of evening newspapers. The first official news came when the old air raid signals were fired from all police and fire stations. The allied troops will

signed at five this morning and hostilities are to be ceased on all fronts at 11 o'clock today.

Extend Period.

The period given for the evacuation of the left bank of the Rhine by the German forces has been extended by 24 hours, according to a French wireless dispatch received here.

Latest Word.

Paris, 7:00 a. m., Nov. 11.—An announcement is made that the German delegates signed the armistice terms at 6:00 o'clock (French time) Monday morning. Hostilities will end at 11 o'clock this morning.

The official announcement from Washington early today said that the armistice terms were signed at five French time. London announcements fixed the same hour of signing it.

President Wilson Orders All Draft Movements Suspended

[BY ASSOCIATED PRESS.]

Washington, Nov. 11.—By order of President Wilson, Provost Marshal General Crowder today directed cancellation of all outstanding draft calls, stopping the movement during the next five days of 252,000 men and setting aside all November calls for over 3,000,000 men.

Some Have Started.
A small number of men in eastern states commenced enlisting at six o'clock today for enlistment under the call and the cancellation comes too late to affect their status. They will be considered as in the army until demobilized. Men not yet enlisted, whether specially inducted or assembled by general call, for whom the day and hour of service has been set by draft boards, will be considered as honorably discharged and be paid.

Navy Not Affected.
Calls for the navy and marine corps are not affected by the cancellation, and enlistment of men for these services will continue as ordered. Draft boards will continue classification of registrants of Sept. 12.

TROOPS WILL CONTINUE TO GO OVERSEA

SIGNING OF ARMISTICE WITH GERMANY WILL NOT EFFECT TRAINING OF MEN IN ARMY CAMPS

FIRST OVER; FIRST BACK

Troops That Have Seen Longest Service On Foreign Soil Will Be First To Return To United States

[BY ASSOCIATED PRESS.]

Washington, D. C., Nov. 11.—The signing of the armistice with Germany does not mean that the American army and navy will cease to operate at once. There is much that remains for the army yet to do and the movement of new troops now in training in the various cantonnments and army camps, to Europe will be continued for some time to come during the interval between the armistice and the signing of the actual peace terms.

Will Use Troops
General Pershing will hold his army intact in the interest of international complications that may arise will doubtless use some of the troops as garrison in some of the important cities in the disputed territory until satisfactory adjustment has been accomplished. They will also be utilized guarding various railroads and important branch lines.

Returning Soldiers
The troops that have seen the longest service on foreign soil will be the first to be returned to this country and demobilized while their places will be taken by the new men sent from this country to take the work of guard duty "over there."

The Naval Force
The signing of the armistice will doubtless release a large number of dread naughts from active duty, but there is now the necessity to clean the ocean highways of the mines which are of American make and for the most were laid by the American ships in the North Sea, particularly. This will be the work of the American vessels now on duty with the British Grand Fleet.

Brought Back Slowly
As soon as practical, however, these men will be returned to this country and mustered out of service. Transport, convoy vessels can be utilized to bring back the returning soldiers and taking over the new forces needed.

EX KAISER HAS ARRIVED IN HOLLAND

WILLIAM HOHENZOLLERN AND PARTY CROSSED DUTCH FRONTIER AT DENTING—ARE PROCEEDING TO CRATEAU MIDDACHTEN.

HE WAS NOT INVITED

Dutch Authorities Are Worried Over Arrival of Germany's Ex-ruler and His Relatives.

London, Nov. 11.—The arrival of William Hohenzollern and party in Holland is authenticated by the semi-official dispatch from Copenhagen, which tells of their arrival at De Steeg.

De Steeg is on the Guelders Yssel, an arm of the Rhine river, about forty miles east of Utrecht and twelve miles from the German border. The Chateau Middachten, to which the former emperor is reported to be proceeding, belongs to Count William Frederick Charles Henry von Bentinck. He is a member of the Prussian guards and before the war was attached to the German embassy in London and a member of the English Turf and Royal Automobile clubs. He is thirty-eight years old. He belongs to the famous Anglo-Dutch-German house of Bentinck, the continental branch of the family of the Duke of Portland. Middachten castle dates back to the year 1697.

Dutch Anxious.
It is also officially stated that the Dutch authorities are seriously inconvenienced by their arrival. There is a difference of opinion what is to be done with them. Some authorities hold the party must be interned and others that in view of the fact they are German officers, they must be returned to Germany.

Crowd Frontier.
William, his wife, the Crown Prince, and a party of ten, crossed the Dutch frontier at Eysden, where the guard was the with them. The arrival of the party without the invitation of the Dutch government or by their permission makes the situation extremely delicate from an international point of view.

Is Complicated.
This in view of the fact that dispatches have been received in Copenhagen which announce that the Soldiers and Workmen's council have now taken over the government of Germany and that regiment after regiment has accepted the dictatorship and policies of the council and that Berlin is now in the hands of this council, makes Holland's position peculiar.

It is announced that Hess-Darmstadt have declared their independence and will establish an independent socialist republic. Dresden is also reported to be in the hands of the revolutionists.

As far as can be learned William nor his party are not under arrest or even under guard but are closely watched by the Dutch government to see that they do not leave the country until it has been definitely decided what to do with them.

MORRIS MILLER

One of the chief charms of baseball, according to a famous veteran, are the new players and situations which constantly arise in diamond battles. It is doubtful, however, if he ever conceived of a situation similar to that which arose during a game played in New England during the last summer.

It was in the fifth inning, three runners on the bases and home out, when a batter stepped to the plate. Right at his heels came the next player, not to bat, but to take a position just a step or two away from the batter's box. The batter hit a sharp bouncer directly at the pitcher and dashed for first base, while all the runners raced around the bases toward home.

It appeared to be an easy matter to throw out the player attempting to score from third at the plate, and the pitcher promptly threw to the catcher, who was all set to complete the play. At this point, however, the unusual happened. The man who had been awaiting his turn at the bat jumped into position, and as the ball shot across the plate took a mighty swing at it driving the ball far into the outfield for a home run, five runs crossing the plate before the ball could be retrieved.

Something resembling a riot among the players of the two teams and the partisan spectators immediately developed and there was a rush for the umpire. After much argument the umpire declared the hit and subsequent runs legally scored, basing his opinion upon the fact that both the pitcher and catcher were in their respective positions when the ball was thrown up to the plate. Not satisfied with this ruling, the losing team took the case to the highest baseball authority who, after a careful study of the circumstances, reversed the umpire's verdict. It was their decision, which has generally been accepted, that the runner attempting to score from third was out, owing to the interference of the batter, who, by hitting the ball thrown to the pitcher at the plate, prevented the play from being accomplished.

The rule governing this case is found in the official baseball code under rule 5.15, section 15, which reads: "No base runner is out, it is out if he is out on one out and a base runner on third base, the batsman interferes with a play being made at the home plate."

Baseball stars, most of them were tardy in realizing their country's need for them in the war. But having responded well to the call, the known Chicago series, has dug up the dope on the big league players of last season. Authors write:

Players have been known to lie, but there is no penalty about the statement that 50 per cent of the professional baseball players under contract or reservation for the eight American league clubs last March have entered the active service of the United States and are in the army or navy.

From certified information obtained from officials of each club it is disclosed that the American league is represented by a total of 144 players in the United States military and that a considerable percentage of them are overseas. Last spring there were under contract or reservation to the eight teams 284 players. More than half of them enlisted or were taken by the draft.

National's Record as Good.
Similar returns from the National league could not be completed because of delays caused by enlistment of some of the heads of clubs in the chemical warfare service, but from incomplete figures it appears the veteran league has sent as large a percentage of its players into actual service. Yet professional baseball, partly through its own fault, was branded as a slacker before the season ended.

AUTOMOBILE STOLEN SATURDAY RECOVERED

A Ford touring car owned by Fred Burgess of this city was stolen from the corner of 12 Milwaukee and North Bluff streets about seven-thirty o'clock Saturday night.

Mr. Burgess notified the police and Chief Clatsop sent two men in search of the stolen car. It was the belief of the Chief that the car had been taken by some boys for a ride.

After a search lasting nearly two hours, the car was located and recovered at the corner of Glen street and Fifth avenue. The persons who had taken it had run it until the gasoline gave out and then left the car standing in the street.

REV. LEWIS' SERMON

Pastor of Methodist Church Preaches
Vigorous Sermon on "The Re-
demption of the Body."

Large audiences were present at the different churches of the city on yesterday, seemingly glad of the privilege of meeting together in worship. At the Methodist church, at the morning service, Rev. F. R. Lewis preached a vigorous sermon on the "Redemption of the Body," which was well received by the congregation. The scripture lesson of the day was the first fourteen verses of the eighth chapter of Romans and the words, "We signify unto ourselves the redemption of the body," were taken as a text. These words were taken as a climax of this book of Romans which drew a contrast between the forces of the world, the flesh and the devil, and the forces of good which were the forces of the spirit. It was explained, was often misunderstood, and the words, "redemption of the body," which recited from the world, and entered a convent or wandered in the wilderness.

John the Baptist was one of these ascetics who believed in the depravity of human nature, and who withdrew from the world to wander alone with God. But that Jesus was not an ascetic was made clear by the speaker, "he lived in the world, and his message concerned precepts for right living, and thinking, when mingled with people round about in the every day routine of life."

The out of spiritualism was mentioned as dwelling particularly on the importance of the spiritual life, but the fact was mentioned that in spite of good authority who claimed that the spirits of the dead came back to earth, yet no great contribution of literature has ever been made by those who had been supposed to return in this way.

The speaker brought out the fact that although every thing done on earth must be done through the body, yet it was the spiritual forces which counted in the long run.

He cited the lives of Charles Wesley and Abraham Lincoln as being more potent now than at the time in which they lived. In spite of the importance of the mind, the speaker dwelt particularly on the need of having a strong body to be pronounced by a corp of physicians as being physically fit to be able to qualify into the American army.

In touching on the redemption of the body he discussed the question of disease, and predicted that the time would soon come when science would make such advances, that the heritage of each one would be that of a sound body.

In speaking of this question of redemption of the body from disease he called attention to the fact, that pestilence and famine had always followed wars, and that while rain falls alike on the just and on the unjust, yet the same holds true of the consequences of injustice, that the innocent suffer with the guilty. "Humanity is one," he said, "we are so wrapped up in the lives of each other, that we must share alike."

It is the hope of this world, that disease may be banished from the earth, by science, and a heritage of strength be given to each one. "The body must be redeemed from vice," was another thought emphasized by the speaker, and the moral influence of sin cannot be gotten rid of even after the physical defect has been removed. It was predicted that when the moral influence of sin is removed, the government by the government be raised in the event of peace, there would be more than ever need of personal moral restraint, or bedlam would break loose.

The last point driven home, was to the effect that the body must be redeemed from inhuman endeavor and this was illustrated by the practices of the present war. This war was defined as a crusade for peace, and was entered into by our nation on that basis. "The American people did not believe in war, but was forced into the present conflict, and would wage it strongly, until the spirit of militarism was buried forever."

The question of the resurrection of the body was discussed and was defined by the speaker, as being to him non-essential. "If I found worth in taking part in a glorious hereafter," he said, "God will give us bodies in which to have our being."

He closed his remarks by voicing a prayer for purity of lives, that the body might be kept clean and holy as a fit dwelling place for the holy spirit.

The choir under the direction of C. E. Beaumore led in the music and sang an anthem "O Be Joyful unto the Lord." A men's choir of 25 voices was a feature of the evening's service. They sang "Something, Somewhere," and "Wandering Child Come Home." Mr. Beaumore is the leader, Mr. Biebinger the president, Geo. Austin, secretary and treasurer, Loran Rice, librarian and Mr. Troen the chairman of membership.

DRIVER HAS NARROW ESCAPE FROM DEATH

George Hager, a driver employed by the American Railways Express company, narrowly escaped being killed this morning when the horse he was driving ran away and the wagon overturned at the corner of Milwaukee and North Bluff streets.

Hager was driving west on Milwaukee street with a load of boxes from the Colvin Baking company when the horse became frightened and started on its mad dash. The driver seeing it would mean possible death to some of the crowd on the down town streets, turned the horse onto North Bluff street.

The wagon overturned, throwing the driver beneath, but fortunately the seat fell on him and protected him from the falling boxes. He escaped without any injury, and Arthur Granger, who was riding with him, sustained an injured knee.

Berlin.—The Soldiers and Workmen's council have taken charge of the immense Krupp works at Essen, Germany and have made prisoners of the owners.

Still Onward
Paris.—The allied armies are still pushing onward and the lines are being extended so rapidly that the dispatches can hardly keep pace with the different alignments. The Germans are retreating rapidly and leaving all baggage in their retreat.

Join Revolutionists
Berlin.—The famous Alexanderian regiment has joined the revolutionary forces as have dozens of others of the famous garrison regiments in the various fortifications of the country.

Without Blood
Berlin.—The result of the present revolution has been almost without blood shed in the majority of cases and the new regime of affairs is now in control. This party is led by deputy Ebert, the socialist member of the Reichstag who is now declared chancellor.

No News
Washington.—No official news as to the armistice had been received up to four o'clock this afternoon by the state or war department today.

Second Army Attack
Paris.—The Second American army is now making a strenuous attack upon the German front and driving all before them. The Germans are retreating along the whole line.

Socialists Supreme
Berlin.—The Socialist party in Germany is in supreme command of the situation and control of the government. Ebert is now the Chancellor of the empire and with his radical socialists is in control of the government.

No Difference
Washington.—The fact that the Emperor has abdicated and the socialists are in control of the government is not taken to mean that the power of General Foch to dictate peace terms has been lessened. It is expected that if the deputies are authorized to sign the papers they will be accepted.

Berlin.—The city has been occupied by forces of the Workmen's and Soldiers council and one building containing officers was fired upon by the troops and replied to by those inside the building. There were many casualties.

Wound Princess Heinrich
Munich, Bavaria.—The Princess Heinrich wife of Frederick the Third of Bavaria, was wounded in the arm by shots fired by rioters as she was fleeing the city. With other members of the Royal family she is in hiding in one of the Royal Palaces near the city.

Seek New Recruits
Berlin.—Trains loaded with revolting soldiers have left the city for various points to urge the troops stationed there to throw their interests with the soldiers and Workmen's council.

Control Germany.
London.—The soldiers and workmen's councils, in reality the Socialist branch of the Reichstag are now in control of the greater part of northern Germany. In Berlin they have been received with joy and the garrison has gone to them and platoons of machine guns and cannon have been placed at their disposal.

Haig Advances
London.—Field Marshal Haig and his forces are following up the retreating Germans and capturing an immense amount of war munitions, having some rear guard fighting but have not caught with the main forces which is apparently in almost a rout along the entire front.

They have abandoned cannon, munition piles, and in some cases entire trains that were ready for transportation to the German lines. Cannon were found with the horses cut loose, the artillerymen taking flight. The allies forces are no war Faubourg and De Bertanot on the German border south of Mons which is in Belgium.

London.—The two provinces of Schleswig and Holstein, formerly a part of Denmark are to be declared an independent republic.

HELD MEET ON SATURDAY**
At a meeting of the Philomathian club, held on Saturday at the home of Mrs. Abbie Helms, the club voted to adopt a French orphan. Mrs. Grace Craig, as treasurer of the organization, is to make arrangements for the same.

The program for the meeting took up the causes of the great world war, Mrs. F. A. Taylor read a paper relating the indirect causes. Among these she noted the universal unrest of both Germany, Russia, and England, and gave a summary of the different states of mind which brought about the policies of the belligerents. That the crisis in Serbia was only made an excuse was shown by recent events.

A paper on indirect events leading up to the war, was read by Miss Cora Clemens, in which she described the occurrences which took place in Sarajevo and Austria, which culminated in the war. The fact that Austria wanted an outlet to the sea, and the bitterness of the Balkan situation were described as prime causes. The efforts of Lord Grey toward the preservation of peace were also noted.

Several war poems were read by Mrs. Helms, among them being "The Choice," by Rudyard Kipling; "Liberty Enlightening the World," by Henry Van Dyke, and "The Kaiser and God," by Barry Pain.

The next meeting of the club will be held on next Saturday with Mrs. Claire Capelle.

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy.

Any druggist can supply you with zemo, which generally overcomes all skin diseases. Acne, eczema, itch, pimples, rashes, blotches, in most cases give way to zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

USHER TELLS TRUTH WHY DEMOCRATS ARE DOOMED TO DEFEAT

(By Ellis B. Usher.)

Milwaukee, Nov. 9.—Wisconsin has gone on record again, and fortunately its record of last Tuesday is clearer than any previous one. Nobody expected anything for the democratic ticket, because there are no democratic votes in Wisconsin, and the democratic managers, with the exception of Mr. Moehlenpah, who would not be managed, was playing the soft pedal on everything anti-democratic and anti-Republican. They tried themselves to agony trying to accomplish this fact while endorsing Wilson with lip-service. They didn't know how well everybody could see it, but they made it easier and safer for Gov. Philipp to manage his three-ringed circus, and let the pro-Germans bunch on Berger and Milwaukee out in the state. This letter earned the state before the primary that Titterton was running a Philipp side-show. The results of the primary day ought to make it clear to even the dullest, densest republican partisan.

Milwaukee makes the thing clear. Berger got two-thirds as many votes in the fifth congressional district alone, as Philipp did in this whole county, and Seidel outran him. But he and his supporters knew that the republican Gibraltar, Rock, Walworth, etc., were safe in the field and that the pro-German vote would not go entirely to Seidel in the heavy German counties, as it did to Berger, last spring.

It is far from a bad result, however. Although the Free Press gloatingly calls it a "repulse," it is, in fact, a sign of progress that could not be foreseen six months ago. Cooper, Cary, Stafford and Nelson, all beamed in the next house and by the way, of patriotism and high purpose. These friends threw him overboard and his 552 votes represent only the American republicans who were scared into voting for him "to beat Berger," or else they were a greater party than national patriots. The management left them "holding the bag" for the third man in the three-cornered race.

But Wisconsin has made a visible step forward in the quality of its congressional and has for the first time shown its true colors in Milwaukee. Both are important accomplishments. I have repeatedly said that it would require every vote in the state, unitedly, for a patriotic candidate, to clean up Wisconsin. That ought to be plain to everybody today, after the governor's great homecoming in this city.

Wisconsin is sound and patriotic but it will show itself in true colors only when it quits all politics except in support of the first time.

Time arrives this state will be spotted with yellow and the world outside will desire its pretensions. Wisconsin is all right but it needs leaders who are not afraid of the word "socialist" has them now. That party gains because it is steadily pushing its advantage.

In June, 1864, over the question of admitting senators from Louisiana and Arkansas, a republican congress divided. And in a statement signed by Benjamin F. Wade and Henry Winter Davis, both republican leaders of the House, and published in the New York Tribune, Mr. Lincoln was denounced as acting under the dictates of "personal ambition." He was charged with "defying congress," with a "dictatorial usurpation," and much more. The radical republican party, who raved at Lincoln for being too slow, adopted a platform at daybreak, May 31st, 1864, that was full of implications that the administration was unmindful of the Constitution, inclined to compromise with rebellion, to violate the right of free speech, free press and the habeas corpus act, and more to the same purpose. This convention nominated General John C. Fremont, the Colorado hero of that day. On August 28th, the democrats declared the "four years of failure to restore the Union by the experiment of a war power higher than the Constitution, the Constitution itself has been disregarded in every part," and attacked the whole program of Lincoln in a substantial usurpation and violation of all individual rights. Two months later Lincoln swept the country, getting a popular majority of 4,148 votes and 212 of the 23 electoral votes of the twenty-five union states. Before election Fremont had withdrawn and the radicals had been submerged. We are moving more slowly, now, but we are making progress, even if Wisconsin does insist upon being on the black list by letting Milwaukee elect a man who has been indicted, in two states, for violations of the espionage laws. The trials of Mr. Wilson are, after all, small in comparison to Mr. Lincoln's.

So far as the reverses of the democrats in the congressional elections are concerned, they are not to be charged up to Mr. Wilson, although republicans are playing smart politics in charging them to Mr. Wilson. They play might well have been omitted, but it is not the cause of the turnover. That is chiefly due to democratic incapacity. The leaders have

not been loyal to Mr. Wilson and there is no party unity or organization. If there were such a reverse would have been impossible. Wisconsin has its utter lack of democratic organization or leadership, lack even of a ticket in county after county, is by no means the only state that was easy to overcome and overwhelm. The democrats are not a party, they are only a crowd, with no party leadership.

The war fund drive will soon be on again but her militant patriotism got an indelible bar sinister across its shield last Tuesday. In an unusually large vote, 72,040, when it is remembered that 30,000 voters are absent in war service, Seidel, for governor, had plurality of 1,286 over Philipp in Milwaukee county, and polled 36 per cent of the total vote. Berger's vote for congress was proportionately larger for in his district was but half of the city. In the face of the two federal indictments there was no discount on the intentionally offensive, treasonable spirit of more than thirty-six per cent of the voters of Milwaukee county and a number of Lake Shore counties north of this have shown the same spirit. In those counties Mr. Moehlenpah got very few votes, because he is a loyal man with German antecedents and was purposely shown, as was "Billy" Wolfe, in 1916, the contempt in which the German-American holds such as he. I am not writing these facts in bitterness, but they will, in the long run, harm nobody but those who in such blind racial rage are putting a black stain upon themselves and the state. The pity of it is that it is an indelible stain and their progeny suffer for it more than they.

Personal and Impersonal.

Now Ashland has got the commission form of government and gone back to aldermen. One by one the roses fall.

It may be a joy to Philipp but the boys in the county court house here are drooping just as if there hadn't been any republican winnings. Of course it's now plain that the way to endorse and support Wilson is to elect republicans, and in Milwaukee, socialist congressmen. Nothing could be clearer.

The Milwaukee Free Press of Thursday repeats its past warnings to the republicans in Wisconsin. It says: "The present election of Victor L. Berger, of the entire socialist county ticket, of the large socialist delegation to the legislature, together with the greatly increased socialist vote in many counties of the state, shows that the republicans have not understood. There are plenty of ears to hear, but in their self-conceit and pride of powers they would not listen."

Seidel got 1,029 votes in Calumet county, Philipp 962, Moehlenpah 597. That's one of the "democratic conquests" of the republicans. The socialist Ed Jones's name didn't spell right for his senatorial district.

It's dollars to cookies that the next Wisconsin legislature won't be dry, even if the brewers are loosed. I cannot credit the theory that when Philipp appointed Mr. Berger on the state board of education that he was with the understanding that the socialists should beat him so in his own town.

The conference on Americanization which was postponed on account of the influenza, will be held in the Athenaeum, this city, Nov. 18 to 22. National speakers will attend.

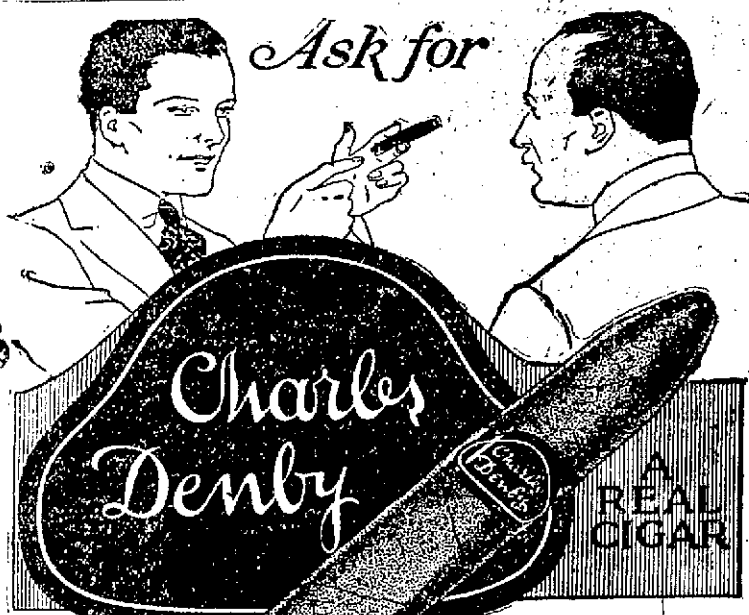

We can all get joy out of the news of peace. The dark clouds will soon see a world free of kaisers.

Tales of the Friendly Forest

Now, I'm going to tell you what the Policeman Dog's club did to Wicked Robber Hawk, who, you remember in the last story, was sitting on the foot of Billy Bunny's bed.

There sat Robber Hawk grinning away at the foot of the little rabbit's bed, but when he saw the Policeman Dog, he was so frightened that he ran away. He didn't feel like laughing any little bit, for the laughing was all against himself now, you see.

"Come along with me," growled the Policeman Dog, and he threw back his great coat and showed his big silver shield, and I think the number was Oh 23, and let me tell you that is a fine number for a policeman, for he has served for twenty years. Only eight or nine of 425 members have served longer. For sixteen years he has been a member of the interstate foreign commerce committee.

But Robber Hawk couldn't run away. No, sir! He couldn't even fly away, for the Policeman Dog stepped forward and grabbed him by the wing, and then that old Hawk gave a loud screech and of course this woke up the little rabbit.

And then Uncle Lucky Lethindfoot woke up, and so did Mrs. Bunny, and they ran into the room.

"Don't be alarmed," which means frightened, you know—said this kind Policeman Dog. "I'm after this old hawk, and he doesn't have to say a word. He can just show his shield, and then the bad people he's after run away and don't bother anybody for a long time."

"Tomorrow you come down to the courthouse and make a complaint," said the Policeman Dog to Uncle Lucky.

"All right," replied the old gentleman rabbit, and he winked at the Policeman Dog. And then Mrs. Bunny opened the front door and Robber Hawk wasn't seen any more that night.

"Mercy me," said the old lady rabbit as she sat down on the unbreakable stand by mistake, for she was so excited, you know.

"And then little Miss Cricket began to sing:

"I'm your friend, so never fear, And when there's any danger near I'll call up in a quiet tone The Policeman on the telephone."

"I'm your friend, so never fear, And when there's any danger near I'll call up in a quiet tone The Policeman on the telephone."

WAR HAS PUT THE BAN ON DOG RACES

New York, Nov. 11.—The wide flung sweep of the world war in its relation to sport has penetrated beyond the Arctic Circle and the classic dog derbies have been abandoned until the return of normal times and conditions. The long distance sweepstakes over the snow trails of the Seward peninsula have been cancelled, according to the plans of the Nome Kennel club. Thus the winter will pass without either the All-Alaska sweepsakes or the Solomon sweepsakes, both formerly big events on the Alaska sport calendar. Last winter only the Solomon race was held.

The All-Alaska prize money of last year, together with the purses for the Red Cross or some other work fund, was abandoned. The big races are abandoned, dog drivers remaining in Nome for the winter will hold several short, informal race meets during the long, dark months of winter. Possibly after the war the big races will be resumed. Then, as in other years, the eyes of the Arctic sporting world will be centered on Nome every August when the malamutes leap at the whip's snap and tug at their sleds over the 412-mile All-Alaska trail to Candle and back.

Thousands of dollars changed hands on the races every year, it was said. When Nome was at its height in the old gold boom days, the All-Alaska purse amounted to \$10,000. The Pioneer says \$200,000 was wagered on the result one year. Dog drivers sprang into the sporting spotlight as a result of skill and endurance on the frozen trails of the far north. "Scotty" Allan, Leonard Seppala, John Johnson, Fay Delesene and others became known far out into the states by their victories in the big races.

Chairman of Committee. La Crosse, Congressman John H. Esch, of La Crosse, dean of the Wisconsin delegation in the House, will be chairman of the interstate and foreign commerce committee in the next congress, as a result of the republicans obtaining control Tuesday. Representative Esch has served continuously for twenty years. Only eight or nine of 425 members have served longer. For sixteen years he has been a member of the interstate foreign commerce committee.

But Robber Hawk couldn't run away. No, sir! He couldn't even fly away, for the Policeman Dog stepped forward and grabbed him by the wing, and then that old Hawk gave a loud screech and of course this woke up the little rabbit.

PROPOSE TO ESTABLISH NEW FREIGHT RATES

Washington, Nov. 11.—As an important step towards wiping out local freight rate discriminations and knocking down rate walls between many states, the railroad administration proposes tentatively to establish new scales of class rates in five zones throughout the west and south, scientifically worked out and based largely on cost of transportation and density of traffic.

The proposed scales, which will be subject to long consideration before the Interstate Commerce Commission, would mean a reduction in rates for general traffic committed before adoption, would cause slight advances in some rates and reduction in others, without any general fluctuation in either direction.

Advantages of the system as set forth by the railroad administration are that it would give all shippers practically the same rates for given distances, regardless of whether their places of business are situated at points served by several roads competing for traffic with the lure of special rates; that it would promote hauling by the shortest route since charges in general would be based on mileage; that it would remove the question of commercial competition, now often restricted by state rate barriers, particularly in the southern states; and that it would simplify the calculation of charges.

Objections are expected from many state commissions, whose rate-making powers would be limited by the action of the interstate commission. The adjustments would raise their rates; from producers who might discover that relations of their rates to those of other producers were not managed to their disadvantage and possibly from some railroads who fear the promotion of short hauling would reduce their traffic when they are restored to private management. Advocates of the new plan propose, however, to retain existing rate relationships between rival communities or producers of commodities, and to make the changes gradually in order not to disrupt shipping conditions.

OPEN OFFICES TO HELP DISABLED SOLDIERS

Washington, Nov. 11.—Offices are now open in each of the chief cities of the United States to receive the applications of disabled soldiers and sailors of the American army and navy for free education to equip them for the vocation for which they are most fitted. These offices have been established by the Federal Board of Vocational and are in the following cities: Washington, Philadelphia, New York, Boston, Atlanta, New Orleans, Cincinnati, St. Louis, Dallas, Denver, Chicago, Minneapolis, San Francisco and Seattle.

At each office are stationed men to advise the disabled fighters as to what they are entitled to receive, a medical officer and a man to obtain employment for them when they are ready to go to work. This promised by the federal board that applications will be sympathetically considered with the best interests of the disabled man in mind.

government will pay the disabled man \$65 a month and in addition will provide him with the funds necessary to pay educational fees. Each man accepted for re-education will be sent to an institution giving special courses in the line he has chosen or he will be given instruction in any industry he wishes to learn.

During his training period allowances will be made by the government to his dependents such as wife, children and mother. These will be fixed in proportion to the amount they received while he was in active service.

When the disabled man has finished his training the federal board is required to have employment ready for him. After he has gone to work again his compensation from the War Risk Insurance Bureau begins and will be worked up to the amount of his earnings.

DAILY PRAYER.

On the battle front--on the sea's wide spaces--in workshop and office--in farm and garden--in legislative halls and Gov. ornament offices--our people wage war for the goals of God. Give good success to their labors, O Lord. May we have clear eyes to see Thy truth and our duty; and with steadfastness pursue our allotted task, until victory brings peace. Amen.

"Add my Uncle Jim to me, and treat him decently. I don't know how to go along with this terrible war is done, if I chance to meet in some friendly through."
"Some chap that I know's a Hun."
"Peace makes enemies friends once more."
"That's custom with men and lands, but I know I'll buck, when the strife is over."

"If a Hun should cry from the wilderness, I'd rescue him from his plight. I think I should let him swim, for his enemies right into my soul are burned."
"And I never can be his friend, so as far as your Uncle Jim's concerned, this war isn't going to end."

HEALTHY HINTS.

For Corns.—To relieve the soreness of a painful corn, try binding it up each night with baking soda moistened with a little water.
Mirror Gleaner.—Pieces of tissue paper are excellent to clean mirrors. First rub the mirror with a damp cloth, then polish with the paper.
A Draught Preventer.—The nursery in a certain house so built that it was impossible to prevent the occupant of one or two small beds feeling a draught when the door was open. A scheme was invented for removing the trouble, which was simpler and less expensive than a screen, and occupied no space at all. Use screen or stuffed cushion to cover the door crack and hook it by brass rings at top and bottom to brass tracks driven into the door and door jamb. Ribbon could be used in the same way.
Southern Spoon.—Broad One-quarter cup fat and cracklings from pork, beef or chicken fat, three cups boiling water, one cup cornmeal, two eggs and one-half teaspoon salt. Use screen or stuffed cushion to cover the door crack and hook it by brass rings at top and bottom to brass tracks driven into the door and door jamb. Ribbon could be used in the same way.
Baked Stuff.—Date Pie—Cook one-third pound date which have been carefully picked over with two cups milk about 20 minutes in top of double boiler. Strain and press through sieve. Add two slightly-beaten eggs, one-quarter teaspoon salt and a few gratings of nutmeg. Turn into pie plate lined with plain pastry. Bake in a quick oven at first to set the rim and decrease the heat as soon as the rim is set, as egg and milk custards should be cooked at a low temperature.
White Cake.—Cream four table-spoons fat, add one-half cup sugar gradually to one egg yolk beaten until thick and lemon-colored. Add one-quarter cup milk alternately with three-quarter cup rice flour, mixed with one-half cup cornmeal, one-quarter teaspoon baking powder and one-quarter teaspoon salt. Fold in the stiffly-beaten white of one egg and one-half teaspoon vanilla. Bake in two-layer cake tins in a moderate oven.
Pumpkin Pie.—Mix one and one-half cups steamed and strained pumpkin with two-thirds cup brown sugar, one teaspoon cinnamon, one cup tea-spoon salt, two slightly-beaten eggs, one and one-half cups milk and one-half cup cream. Bake in one crust in moderate oven.

HEART AND HOME PROBLEMS

LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE

Dear Mrs. Thompson: I am engaged to a soldier who is in France now. He said he loved me dearly and wanted me to wait for him. I love him more than any one else ever met, but there is a boy here who wants to go with me. I like him well enough for a friend, but not as well as I like the soldier.

When you are gone he may realize how much you and the baby meant to him. If he does not realize you to him, he will be about your only course. You are too young to spoil your life with a man who is so dishonorable that he goes with other women.

Dear Mrs. Thompson: I have been going with a fellow for a year. He has told me he loved me and that he would give me a present. I didn't give him any, but thought I would give him one this year. He doesn't like to read and I don't know what to get him. He has come every Sunday and my folks think he is a very nice boy.

Make the boy a box of home-made candy. If you can you are older and knif would make an acceptable gift.

Dear Mrs. Thompson: I am a girl of sixteen. I have been crazy about all the boys in our crowd since I was nearly all of them, but after I have had two or three dates with them I do not care anything about them. I don't care to change so that I will not tire of them so easily.

Dear Mrs. Thompson: I have an expensive pair of shoes and have scuffed them. What can I do?

Probably there is nothing you can do to improve the appearance of the shoes. Take them to the shoemaker and ask his advice.

Dear Mrs. Thompson: I am a married woman eighteen years old and have a child. My husband is running with other women. Shall I send my baby home with my mother or stay with him? He is a miserably poor man and makes my life miserable by taking other women out in public when he is never seen with me. He tells me that he hates me and the baby.

Dear Mrs. Thompson: I am a married woman eighteen years old and have a child. My husband is running with other women. Shall I send my baby home with my mother or stay with him? He is a miserably poor man and makes my life miserable by taking other women out in public when he is never seen with me. He tells me that he hates me and the baby.

"There is a man—a soldier—in the drawing room, madame," she whispered. "He brings a message for

"Who is this, Madame?"

"Madame—it must be delivered at once. I will keep watch while madame is gone."

She nodded. He had sent for her. She was going to him. Nothing mattered now. She had waited long enough. The little fragile chain of self-control had snapped. She was going to him—now, cost what it would. Yet outwardly she was quite calm as she pushed aside the curtains. Only the uneven color of her cheeks might have betrayed her.

"Yes?" she said interrogatively. The legionary standing against the light turned and clasped his heels together.

"A letter, madame, to be delivered in your hands."

"I thank you." Her voice sounded gentle, graciously courteous. She tore open the letter with steady fingers.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a yellow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety percent of all sickness comes from inactive bowels and liver.

Dr. Edwards' Olive Tablets, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

He Won't Drop Dead Any More

"My husband suffered terribly from stomach and liver trouble, which caused such bloating of gas as to seriously affect his heart. Doctors warned him that he might drop dead at any time from this trouble. A friend in Cleveland advised him to take May's Wonderful Remedy, and since taking it, 4 months ago, he is feeling like a young man again. All his friends are surprised at his appearance. It is a simple, harmless preparation that restores the catarrh that causes the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. J. P. Baker, Druggist."

Resinol stops itching instantly

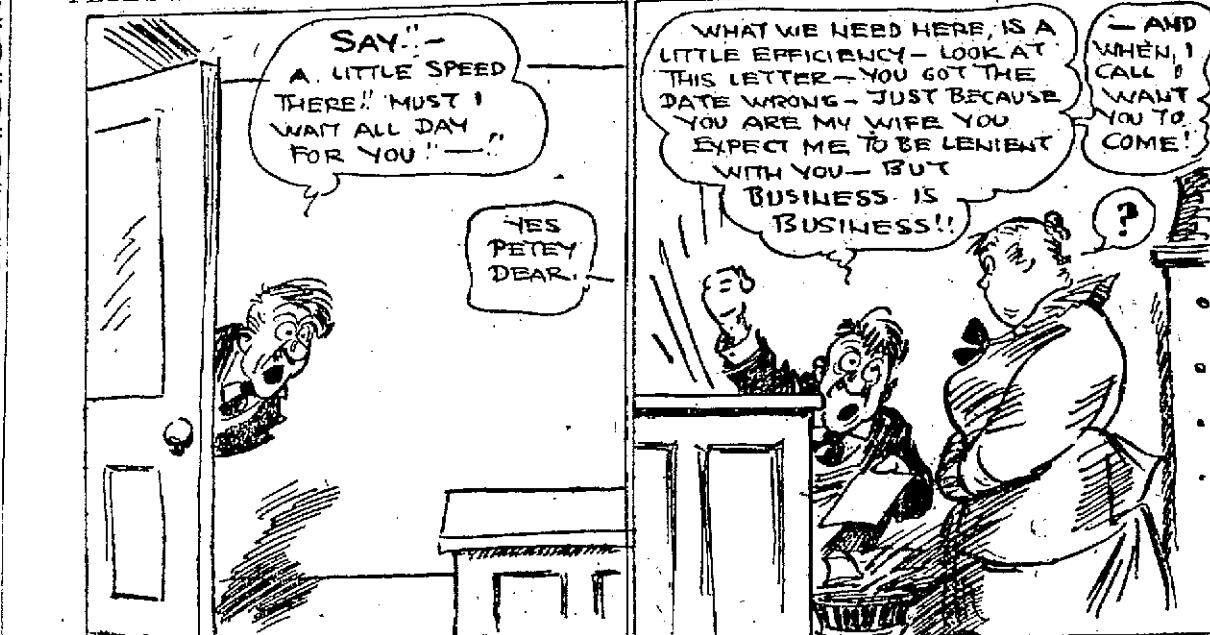

Don't let that itching skin trouble torment you an hour longer! Just spread a little Resinol Ointment over the sick skin and see if the itching does not disappear as if you simply wiped it away!

And—even more important—this soothing, healing ointment rarely fails to clear away promptly every trace of the unsightly, tormenting eruption, unless it is due to some serious internal disorder.

Resinol Ointment usually gives even prompt results if the sore places are first bathed thoroughly with Resinol Soap and hot water.

Resinol Ointment and Resinol Soap contain nothing that could injure or irritate the tenderest skin. They clear away pimples, redness and roughness, stop dandruff. Sold by all druggists.

PETEE DINK—BUSINESS ISN'T BUSINESS, THOUGH, WHEN A PRETTY GIRL'S TEARS BOB UP.

"Will you take back a message from me?" she asked.

"Such are my orders, madame."

"Will you tell Colonel Destina?"

"Yes?"

"Is that all, madame?"

"That is all."

Yet he remained motionless, watching her.

"Madame, I have another message. It is for another lady—a Mademoiselle Gabrielle, who is Madame's companion."

"From whom?"

"From a comrade who dies at day-break."

She caught her breath inaudibly. The pulse stopped for a moment. In the full course of her reckless purpose something gripped and held her—a poignant suspicion, an emotion that was like jealousy.

"Mademoiselle Gabrielle is not here," she said slowly. "If you give me the message I will deliver it."

"It is verbal."

"I will deliver it exactly."

He looked at her. She did not like his face. There was an imperturbable arrogance in his eyes which offended her.

"The message is a simple one. My comrade said to me: 'Tell her that her faith in me made many things possible. Tell her that the reality was more beautiful than the mirage.'"

"A strange message," she tried to laugh, but the laugh shook and broke off. "I shall endeavor to remember."

"My comrade will thank you, madame."

He saluted and turned to go. But on the threshold of the wide-open windows he halted. He seemed to be looking at something, and suddenly, to her angry amazement, he stopped and picked up a silver frame from the bric-a-brac on the low table.

"What are you doing?" she demanded imperatively.

He faced her with an ease and decision that startled her.

"Who is this, madame?"

"Are you mad? Shall I have to report you to your colonel?"

She glanced at the photograph which he held toward her. Against her will, forced by an indescribable fascination, her eyes rose again to his face. And suddenly the pulse stood still, drowned in a rushing flood of incoherent terrors.

"That was my brother."

She used the past tense for the first time with that deadly sense of conviction. The legionary unfastened his tunic and drew out something, which he laid quietly on the table beside her.

"Then this belongs to you," he said simply.

Mechanically she took up the little locket and opened it. Inside was the thing she knew that she would find, her own miniature—a valueless, amateurish effort done in her schoolgirl years for her adored comrade.

"I knew him as Philip Grey, madame. He gave it me nearly two years ago—when he was dying."

"Then—he is dead?"

He made a grave plying movement of assent.

"He was my friend, madame. He belonged to my company. He was not strong, and one day out in the desert he gave way. He went mad, I think—mad with exhaustion and thirst. He disobeyed orders, and they gave him a double burden. He broke down, and they left him out there—in the desert."

"How long ago?"

"As I have said—nearly two years. It was Colonel Destina's great forced march south—one hundred and fifty kilometers in three days. Many of us died on the road."

She laughed suddenly. She had the

odd feeling that there was a third person in the room—a black faceless shadow that had laughed with her. She had to make a great effort to regain her composure.

"Yes—and then?"

"Afterward they allowed me to go back and fetch his body. I did not know his real name, but he had given me the locket, and it occurred to me that if ever his people knew they would be glad that he had not been left out there—alone. He lies in the Legion's cemetery—Philip Grey, No. 3112."

"Yes—I remember—thank you."

She did not see him go. She dressed quickly and went out into the courtyard. A voice called her by name with monotonous persistence, but she didn't hear it. There was a woman with flowers to sell standing hesitantly in the passage, but she did not see her. She had grown deaf and blind to the present. She was looking back along the road she had come, and she saw the fate she had invoked stalking invisible beside her.

"Sylvia! Sylvia!"

The flower-girl still stood in the shadowy passage. Imperturbably, with inscrutable eyes, she watched Sylvia Arnaud's figure stand out for a moment against the sunlit avenue and disappear.

"Sylvia!"

"Philip Grey, No. 3112, Legion Strangers."

Sylvia knelt, with clasped hands, and gazed at the roughly-cut letters. Around her and above her a sea of crosses—hundreds upon hundreds, in the voiceless identical supplication of forgotten things. She prayed softly. She did not cry. She felt herself surrounded with a peace that was above tears. Little by little the flood was flowing back on its old course. She was thinking what she should say to Destina when he came to claim her. She would rise up and point to this piteous untended mound. "This lies between us," she would say to him. She would not curse him. In expiation she would claim Richard Parquhar's life. She would go back to her husband; she would take up the broken threads and weave them to the perfect pattern. She would carry with her the memory of that brief glimpse of her own soul, of her own love. The dead are not in vain—it was a beautiful thought.

Steps sounded on the gravel pathway. She looked up, but it was not Destina who came toward her. It was the flower-seller, her basket crowded with fresh blossoms.

"Roses, madame? Roses to offer to the dear dead?"

"Ah, yes, I thank you. Give me all that you have."

She covered the low mound with gorgeous red and gold. The beauty of it—of this chance—lifted her grief on soft wings to a gentle, almost happy resignation. She said, smilingly, "I shall come every day, and every day you must bring me all your flowers."

She wondered what it was—that had come over her. Something had happened. There had been a sharp, insignificant little pain between her shoulders—a mere nothing. She caught her breath; it hurt her, and she turned slowly, her eyes wide open with a childish amazement.

"What has happened?"

The woman opposite her said nothing. Her face, through the rising mist, was blank, unreadable. Sylvia put her fingers to her lips—she did not know why she had done so; she saw now that there was blood on her fingers. She remembered that she had kissed one of the roses. Perhaps it had bled. She tried to turn back again. Her limbs were curiously heavy—almost leaden. Then she dropped, face downward, amid the scattered roses.

CHAPTER XXI.

Atonement.

"Mrs. Farquhar, do you hear me—do you understand?"

The wide blue eyes flickered an instant; it was her only response. She lay stretched out, white and still on the great bed—a pathetic figure in which age and childhood's frailty had joined in the completed circle of life. Her hands lay on the counterpane. They were still loaded with rings, and the heavy, glistening stones seemed to have drawn in all the vitality from the dead and helpless fingers. For the first time her wig sat straight, and by contrast the face beneath looked smaller, wizened and shriveled like a little old witch who, somehow or other, had retained a grotesque fascination. Only the eyes were terrible. Save for that one scarcely perceptible flicker of assent they never closed or wavered, yet the change in them, was ceaseless. They passed from face to face with a concentrated intensity that was savage in its dumb significance. They became then pitiable in their ap-

deal or frantic in their fierce impatience.

Preston, standing beside her, took one of the helpless hands and pressed it shyly.

"You understand, Mrs. Farquhar? I've been something worse than a blackguard—I've been a fool. But now I'm going back to make good. You trust me now, don't you? You believe me—I'd lay down my life to have Richard back. You know that? I won't touch my native shore till I've made things right."

Dinner Stories

A lawyer was examining a Scottish farmer. "You affirm that when this happened you were going home to a meal. Let us be quite certain on this point, because this is a very important one. Be good enough to tell me, sir, with as little prevarication as possible, what meal it was you were going home to."

"Yes, I would like to know what meal it was," asked the Scotchman.

"Yes, sir, I should like to know," replied the counsel, sternly and impressively. "Be sure you tell the truth."

"Well, then, it was just oatmeal."

A Chicago packer was telling the lack of industry in England as compared with the inventive aptitude of his own countrymen.

"Why," said he, "they tell me a man down in New Orleans has invented a sausage machine. It's a big sort of tool, driven by steam. All you have to do is to drive a pig up a plank, through a hole in the machine, and five minutes later out come thousands of sausage."

"What becomes of the hide?" queried the solitary Englishman of the audience.

"The hide, sir," retorted the Chicago man. "Oh, that falls out of the other slot in the machine and out come Gladstone bags, purses, and so on. The hide or skins are merely a matter of turning a screw."

"Oh, is that all?" said the Englishman. "We've used that machine in England for the last thirty years. What's more, we've improved on it. Sometimes we found the sausages were not up to the standard. Well, what happened? All we had to do was to put them back in the machine, reverse the engine."

"Go on!" cried the American.

"What happened?"

"What walks the pig as fit as a fiddle."

Big sister was sleeping with little sister and put her cold foot on baby's head, which provoked this remark: "O sister, take your frigors off my majestors."

BROOKLYN

Brooklyn, Nov. 9.—Friends of Chas. Simmons were shocked to hear that Tuesday night he attempted to commit suicide by cutting his throat. His wife found him in an unconscious condition. Every medical attention was given him but on Thursday morning he died. Poor health and worry is said to be the cause for the act. The funeral was held from the home Saturday afternoon and interment was in the Prairie cemetery west of Brooklyn.

UMBRELLA SKIRT FOR AVIATOR!

They Save the Life of the Daring Acrobat.

The gentleman, who appears to be masquerading as an umbrella is in reality demonstrating a life-saving suit for aviators. The parachute as a means of escaping from a disabled airplane has never been properly developed because the size and bulk of the parachute made it a difficult thing to dispose of in the circumscribed accommodations of an aeroplane, but this double parachute may overcome this objection. A body-band has a small parachute secured above it over

the head of the aviator, while a similar arrangement resembling a skirt is secured below. In case of being compelled to abandon his ship in mid-air, the inventor says, the double parachute will allow him to drop to earth so gently that he will be enabled to tell his friends of his sensations experienced on the way down.

How Long Must I Suffer From the Pangs of Rheumatism?

Is there no real relief in sight?

Doubtless like other sufferers, you have often asked yourself this question, which continues to remain unanswered.

Science has proven that your Rheumatism is caused by a germ in your blood, and the only way to reach it is by a remedy which eliminates and removes these little pain demons from your blood. This explains why liniments and lotions can do no permanent good, for they

THE DAWN OF PEACE!

When the New Century was ushered in, nearly nineteen years ago, the prediction was made that it would be the brightest century in the world's history, and its opening years were full of promise but before the first decade was fairly past the demon of war appeared on the horizon, and soon the world was engulfed in the most brutal and bloody conflict ever experienced. The twentieth century will be recorded as the most disastrous that the world has ever known. A century where the perverted will of man had full swing and accomplished its hellish designs without divine interference.

But all things come to an end at last and so the dawn of peace, for which we have longed and prayed, is in sight and we have every reason to believe that out of the armistice will soon come permanent and abiding peace, when the premature celebration of a few days ago, may be ratified by the people of the nation as an established fact.

PEACE, can we grasp what the word means in its full significance, what it means to the nations of the old world who for the past four and a half years have been rent and torn asunder by the most brutal and destructive war in history. To millions of homes it means no home coming for the husbands and fathers and sons have been sacrificed and many a battle field marks their last resting place, and yet to these desolated homes, peace will come as a welcome guest for it dispels the gloom which has shrouded the world like a dark pall and directs thought into cheerful channels.

PEACE to the allied nations, which have so long contended for mastery, means everything. It is the beacon light of hope which sustained them through the dark days when defeat stared them in the face and caused them to stand with their backs to the wall and fight to the last ditch, cheered by the assurance that right is might, but with the odds against them they fought valiantly until the Macedonia cry came to us from across the water and then they held the post while the vast resources of our own land were mobilizing and when we joined them at the front, hope revived and the assurance of peace at no distant day became an established fact.

PEACE, to Austria Hungary and Russia and Rumania and Servia, to Poland and Bulgaria, and to other nations which have long been under the yoke of oppression, means the dawn of a new civilization, for while the war may be over, the work of reconstruction has but just commenced. "Making the world safe for democracy" means more than the defeat of Autocratic Germany, and this is the great principle which put us in the war and for which we have so lavishly contended.

PEACE to the old world means the cessation of hostilities, and to France and Belgium it means removing from the soil of these lands a foe which delighted in destruction and devastation, which time can never fully restore. But to America peace comes with new and strange significance. The great victory won carries with it nothing in the way of conquest. We had no hatred to gratify and the spirit of revenge did not stimulate to action. The sinking of the Lusitania did not put us into the war, but the threat of a world dominion, with the Kaiser on the throne did and so we entered and fought for the freedom of humanity, and peace means to us the first long stride in the fulfillment of this high ideal. It has been difficult to trace the hand of Providence in permitting this war with all its frightful and unnatural tragedies, but there has been no question about right and justice, and no doubt about the final outcome.

PEACE to Germany should mean repentance in sackcloth and ashes. The world may in time forgive, but it will never forget the nation responsible for the most bloody war in history or of the dastardly deeds committed by a fiendish foe. What the future of Germany will be, time alone can determine. She stands today an outlawed nation, with misdeeds before a foothold can be secured among the nations of the world.

PEACE on earth should inspire an anthem of praise which shall ring in joyful strains around the world. May it be permanent and abiding.

HERBERT HOOVER WILL SOON LEAVE FOR FRANCE

(By Associated Press.)
Washington, Nov. 9.—Food Administrator Hoover will leave soon for Europe to direct preparations for

feeding the people in redeemed northern France and Belgium, and aiding in the task of preventing starvation in Austria, Bulgaria and Turkey.

It sounds so ungrammatical to say "I have 'flu'."

RESCUED FROM THE HORROR OF HUN SLAVERY

The Excuse for Starting

On June 28, 1914, Archduke Francis Ferdinand of Austria and his morganatic wife, the Duchess of Hohenburg, were assassinated by a half-crazed nineteen year old Serbian student, one Gavrilo Princip, while the heir to the Austrian throne was on an official visit to the town of Sarajevo, Bosnia. Whether Princip was acting on his own initiative or whether his crime was the result of a plot has never been fully established. It is declared by the central powers that the double murder was plotted in Serbia. On the other hand, there is a widespread belief in allied countries that the plot was hatched in Germany, in order to give the Kaiser an excuse for commencing his war of conquest. In any event, the murder of the archduke and his wife was made the excuse for an ultimatum from Austria to Serbia on July 3, which because of its uncalculated harshness amazed the world.

Austria's Harsh Demands.
The note submitted ten specific demands and required an answer from Serbia within forty-eight hours. These demands required that Serbia should suppress every Serbian publication hostile to the dual monarchy; that teachers guilty of instigating hatred of Austria be dismissed and that water in the text-books objectionable to Austria be eliminated; that Serbia dismiss from her army and governmental employ all officers and officials found taking part in the propaganda; that Serbia accept the collaboration of agents of the Austro-Hungarian government in suppression of the subversive movement against Austria; that Austro-Hungarian representatives be allowed to take part in the investigation of persons in Serbia accused of complicity in the murder of Archduke Francis Ferdinand; that Serbia take action against two specified officials who were accused of complicity in the crime at Sarajevo; that Serbia take effective measures to stop the smuggling of arms and ammunition across the border, and finally that

Serbia give explanation of the expressions of hostility toward Austria-Hungary on the part of certain high Serbian officials.

Humiliating and unjust though the demands undoubtedly were, Serbia in her reply acceded to them all except two. To the demand that Serbia accept the collaboration of agents of the Austrian government in the suppression of the subversive movement directed against the territorial integrity of the dual monarchy, Serbia replied that she did not understand exactly the meaning of the demand, but that she was ready to accept such collaboration as should conform to the principles of international law and criminal procedure. The demand made by Austria that Austrian officials be permitted to take part in the investigation relating to the judicial proceedings in Serbia against persons involved in the Sarajevo crime, the Serbian government would not concede on the ground that such action would violate the Serbian constitution.

No one now believes that Austria wished Serbia to accept all her terms or expected her to. Austria was deaf to the appeals of Great Britain and Russia and declared war on Serbia on July 28. During the next few days Germany declared war on Russia, Serbia's protector, and France, and the conflict was on.

As to the murderer of the archduke, he was not executed, but placed in an Austrian prison, where he died of consumption last year.

Suggest Plans For a Liberty Building

The directors of the Chamber of Commerce at their next meeting will consider the erection here of a "Liberty Building" as a memorial to Janesville and Rock County boys who participated in the war, according to J. P. Cullen, President of the Chamber.

In making the announcement, President Cullen said: "No mere shaft of marble or granite can ever symbolize the Democracy for which the world war was fought. To those who have fought—some to live and others to die—Janesville in common with the whole American people will owe a debt of gratitude which it never can repay. Some memorial should be erected to commemorate the heroic living and dead.

"Such a memorial should be a structure which shall help the living while commemorating the dead.

"Such a building should include facilities for recreation, culture, fellowship and public service. Now that plans are being perfected for the enlarging of our city it is apparent that the Chamber of Commerce, which is largely identified with this work of development, should consider the erection here of such a memorial. As the county seat it is the logical place. The subject will be presented at the next meeting of the Board of Directors."

The American City, a magazine devoted to civic betterment and published by the American City Bureau, which organization organized the Janesville Chamber of Commerce, advocates such memorials and the idea has met with instant approval throughout the country. The Chamber of Commerce, alive to the needs of the community, is the proper body to undertake the project.

DEPUTY EBERT HEADS THE GERMAN PEOPLE

Deputy Ebert, who according to the German wireless message is appointed imperial chancellor, is Friedrich Ebert, vice president of the Social Democratic party and president of the main committee of the reichstag.

Ebert's election to the latter office in June of this year was taken to mean that the Socialists, minority in the reichstag had either been reclaimed by the military government or that the Socialists had gained the ascendancy. Later events have proved that the Socialists were in the saddle.

Ebert quite recently declared in the reichstag that the German people would no longer permit themselves to be with the right to decide fate. It was who informed the reichstag of the release of Dr. Leibknecht.
